# HY PARK

hydrogen  
energy days

Torino, 8<sup>th</sup> February 2006

## PRESS RELEASE

### TORINO OPENS UP THE HYDROGEN FUTURE

**The Olympic host town presents the state of the art of the new clean and renewable energetic technologies in a big exhibition-lab open to the public**

Torino honours the European Community acknowledgement of *"first green Olympic Games in history"* with **Hy Park**, a big event dedicated to the energy of the next future, applied to everyday life.

Twelve days characterised by hydrogen, in an exhibition - organised by **Environment Park** and sponsored by **Regione Piemonte**, in collaboration with **Comune di Torino** - which will show the researches and the excellence of **Sistema Piemonte Idrogeno (SPH2)** and which will allow the visitors to watch the near future and really touch all the benefits gained by using this clean fuel in many aspects of everyday life. From house heating to public transport, from playgrounds to personal mobility on two or four wheels.

Among the different proposals, it will be possible to try, on a test area, 20 hydrogen-fuelled motorbikes, made by Environment Park with the contribution of Camera di commercio di Torino.

An event really in the forefront just like the subject it explores. During the exhibition, Hy Park will offer interesting and deep analysis, together with moments of diffusion and entertainment.

## PROGRAMME

**8<sup>th</sup> February - 12pm:** preview for the media (**Mercedes Bresso**, *presidente della Regione Piemonte*; **Tom Dealessandri**, *assessore al Lavoro del Comune di Torino*; **Angela Massaglia**, *assessore alla Pianificazione Ambientale della Provincia di Torino* and **Alessandro Barberis**, *presidente della Camera di commercio di Torino*, will be present)

**8<sup>th</sup> February - 6pm:** opening (**Andrea Bairati**, *assessore all'Innovazione e alla Ricerca della Regione Piemonte*, **Tom Dealessandri**, *assessore al Lavoro del Comune di Torino* and **Dario Ortolano**, *assessore all'Ambiente del Comune di Torino*, will be present)

**13<sup>th</sup> February - 12pm:** official presentation of the new hydrogen-fuelled Fiat Panda (**Mercedes Bresso**, *presidente della Regione Piemonte* and **Andrea Bairati**, *assessore all'Innovazione e alla Ricerca della Regione Piemonte*, will be present)

**17<sup>th</sup> February:** visit of the European Union regional delegates

**18<sup>th</sup> February:** hydrogen 'sleepless night', with an exceptional opening till 1am

**Hy Park. Hydrogen energy days**  
**Torino – Largo Cairoli, 8<sup>th</sup>/ 19<sup>th</sup> February 2006**  
**Mon / Thu, from 10am to 7pm – Fri / Sun, from 10am to 10pm**
